

Watching a videoconferencing recording on the internet:

You will need a high speed internet connection in order to view this recording

1. In your web browser (Internet Explorer, Netscape, Safari, etc.), enter the web address: <http://129.72.9.18/> into the URL field and go there...
2. Click on "Click here to log in" (lower left)
3. Click on "View recordings list" (lower left)
4. Scroll down to find your class name on the date of the recording. **Do not click on the course name. Click on "watch" next to the name.**
5. Enter the PIN number given to you by an UW Outreach staff member or the instructor. The PIN number will change for every class.
6. Use the drop down menu to choose the format and speed (choose the highest speed your connection will allow for highest quality).

Then click on "start streaming"

If the class doesn't play, you may need to upgrade the version of player you have on your computer. You may have to install the latest version. Here are sites to access and install the latest free players:

Windows Media Player: <http://www.microsoft.com/mediaplayer>*

***NOTE: Windows Media Player requires you to download and install a small file. You can download it from the link just beneath the player window.**

Realplayer: <http://uk.real.com/home>

Quicktime: <http://www.apple.com/quicktime/download/standalone.html>
